SUMMARY

DevOps Engineer with **one year of freelance experience** shipping and maintaining live production systems, hands-on with Docker, CI/CD pipelines, Nginx, Kafka, and Linux, managing production deployments, CDN configuration, load balancing, server optimization, and live-traffic issue handling. Also a Full Stack Developer who has shipped production web platforms end to end using React.js, Next.js, Node.js, FastAPI, and PostgreSQL, MongoDB, with working knowledge of AI systems including LangChain, RAG, MCP, and Agentic AI. Hackathon winner at **IIT Gandhinagar**.

EDUCATION

Vishwakarma Government Engineering College (VGEC), Ahmedabad 2023-2027
Bachelor of Engineering in Information and Communication Technology CGPA: 8.15

EXPERIENCE

Vintage Valley Resort – Hotel Booking Platform Freelance · vintagevalleyresort.com

- Designed, built, and deployed a hotel booking platform end to end on Hostinger as the sole developer.
- Integrated Razorpay payments and Ezee API for real-time room availability and automated bookings.
- Handled production issues, server-side optimization, and secure JWT authentication for live traffic.

NemLUXURA – E-Commerce Platform Freelance · luxuramattress.com

- Shipped a production e-commerce platform with authentication, admin panel, and scalable REST APIs.
- Implemented secure payment workflows, reviews, and responsive UI from requirements to hosting.

Waltain Energy – Renewable Energy Business Website Freelance · waltainenergy.com

- Delivered an informative business website for a renewable energy client with a modern brand presence.
- Designed a responsive, modern neumorphism UI and deployed to production on Hostinger.

PROJECTS

FarmXpert – Multi-Agent AI Platform for Farmers 1st Place, IIT Gandhinagar

- Architected a multi-agent AI platform with **10+ agents** orchestrated via LangGraph and RAG pipelines.
- Engineered each agent as a hybrid rule-based + LLM system with layered config, service, and schema modules.
- Designed a scalable FastAPI backend with modular agent architecture and LLM communication.

CUDAS – AI Interview & Career Roadmap Portal Top 7, Smart India Hackathon (SIH) Finals

- Built an AI platform connecting students, colleges, and recruiters with AI interview agents.
- Integrated LangChain, RAG pipelines, and OCR document understanding for interview workflows.
- Developed the career roadmap agent and a project verification agent validating student's GitHub repositories.

QuickCourt – Sports Court Booking Platform ODOO Hackathon

- Developed a court booking app with secure payment integration and optimized booking workflows.
- Built a responsive UI with real-time slot availability, booking management, and admin controls.

ACHIEVEMENTS

- 1st Place** – Codeversity AI Hackathon, **IIT Gandhinagar** (FarmXpert).
- Top 5** – Hack for Green Bharat Hackathon, **Microsoft Gurugram** (FarmXpert).
- Top 7** – Smart India Hackathon (SIH) Grand Finale (CUDAS).
- Top 10** in Gujarat, **Top 100** in India – AMD Slingshot Hackathon (CUDAS).

SKILLS

DevOps	Docker, Linux, Kubernetes, CI/CD, CDN, Kafka, Nginx, Load Balancer, AWS(Basic), Terraform, DNS
Production & Deployment	Production Deployment, Server Optimization, Backend Scaling, Production Issue Handling, Hosting Management
Languages	JavaScript, Python
Backend	Node.js, FastAPI, REST APIs, Middleware Architecture, API Development
Frontend	React.js, Next.js, HTML, CSS, Responsive Web Design, UI/UX Design
Databases	PostgreSQL, MySQL, MongoDB
Architecture & Design	Agentic Architecture, Scalable Backend Design, Production-Level System Design, Folder Architecture
Security	JWT & Cookie-based Authentication, bcrypt, API Security, Secure Backend Development
Tools & Platforms	GitHub, GitHub actions, Razorpay, API Integration, Hostinger Deployment
